

STOP 5G POLLUTION NOW !!!

WHAT YOU DON'T KNOW CAN AND WILL KILL YOU !!!¹

What is 5G?

5th generation wireless technology, or 5G, is a term used to describe the next level of telecommunication hardware using millimeter waves (MMWs) instead of currently used microwaves.

What Are MMWs?

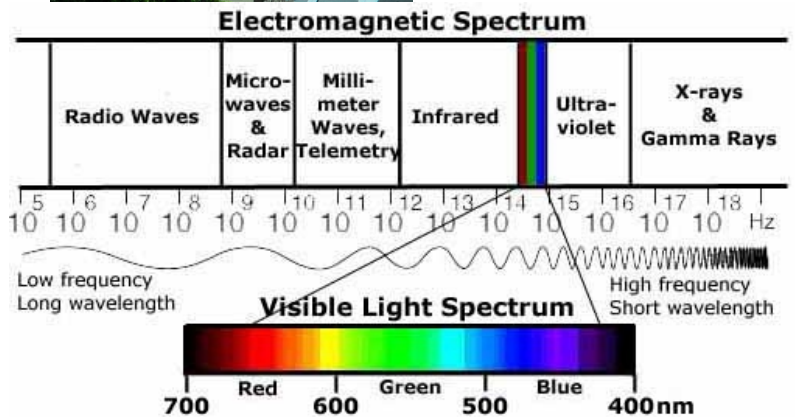

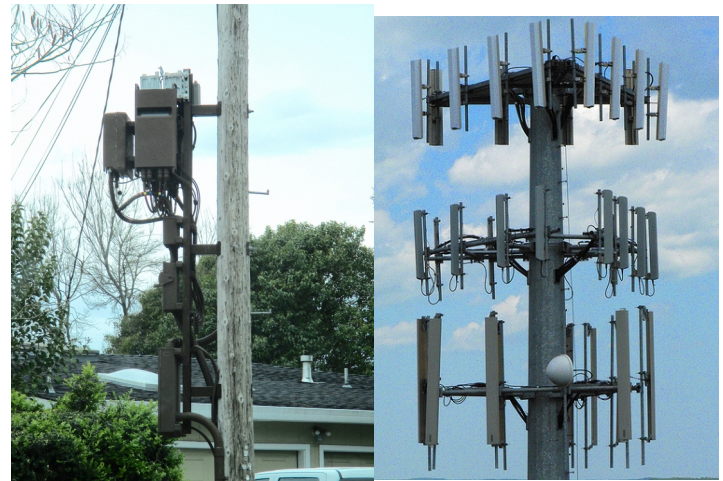

Millimeter waves fall between microwaves and infrared waves. MMWs are exponentially more intense than microwaves, as these waves work on a frequency range between 30 and 300 gigahertz (GHz). To put that in perspective, current 4G networks only go up to 6 GHz.

Did you know that ... the FCC and the industry want to install a 5G smart cell on nearly every block?

Did you know that ... children are exponentially more sensitive to microwave radiation than adults?

Did you know that ... 5G towers are being installed right next to your bedroom window?

Did you know that ... the World Health Organization (WHO) classifies electromagnetic frequencies (EMF) in the range 30 kilo hertz (Khz) to 300 GHz as a group 2B carcinogen, a group that includes lead, thalidomide, and ethylbenzene?

Did you know that ... the European Journal of Oncology has published a petition from over 200 scientists and doctors from over 40 countries calling for a moratorium on 5G amid human health concerns?

Did you know that ... the National Toxicology Program exposed rats to less than 1 GHz of EMF for 12 hours a day for two years? They reported statistically relevant heart and brain tumors in treated groups.

- *Did you know that ...* MMWs are a patented form of weapons used by the Pentagon ???
- *Did you know that ...* former FCC Chairman Tom Wheeler openly said that “we do not believe we should spend the next couple of years studying what 5G should be or how it should operate” ???
- *Did you know that ...* cellphone manufacturers in their legal section tell consumers to keep your phone at least 5 millimeters away from your body (i.e., not in your front pocket) ???
- *Did you know that ...* numerous scientists from around the world are linking EMF pollution to the die off honeybees, birds and other organisms ???
- *Did you know that ...* there are literally hundreds of live animal, test tube and human studies published in numerous peer-reviewed journals concluding that chronic human exposure to EMF levels can cause DNA damage, cancer, reduced brain function, infertility, eye problems, fatigue, and much more ???
- *Did you know that ...* insurance underwriters, including Lloyds of London, have refused to offer insurance relating to damages and litigation caused by EMF radiation, and in fact classify EMF as a form of pollution ???
- *Did you know that ...* cities all across Europe, including Brussels, Geneva, Segovia, Rome, and Florence have passed moratoriums on 5G development ???
- *Did you know that ...* the state of New Hampshire is passing legislation calling for a formal investigation into human health concerns of 5G ???
- *Did you know that ...* EMF exposure limits set by the FCC are nearly 100 times higher than Russia, China, Switzerland, and most of Eastern Europe ???
- *Did you know that ...* current FCC regulations on EMF levels do not take into account the damage caused by non-thermal, non-ionizing radiation levels ???
- *Did you know that ...* even the industry (e.g., Verizon, AT&T, American Tower Corporation) warns their shareholders of potential litigation costs that could arise from human health damages caused by EMF pollution ???

CALL YOUR CITY COUNCIL, MAYOR, GOVERNOR, SHERIFF, HOUSE REPRESENTATIVE, AND SENATOR. TELL THEM THAT YOU ARE CONCERNED AND DEMAND THAT THEY ISSUE AN IMMEDIATE INJUNCTION AND SUSPENSION ON THIS INVISIBLE POLLUTION!!! TIME IS OF THE ESSENCE!!!
